

ALAZOR - HAMS AND SAUSAGES

TECHNICAL DATA SHEET "JAMON IBERICO DE BELLOTA"

Health registration: 10.23452/CR

Ingredients: Iberian pork ham, salt, sugar, acidity correctors E-331, conservative E-252 and E-250 and antioxidant E-301.

Description of production process:

Process begins with a careful selection of raw material that once in our facilities we proceed to its classified manual in terms of its weight in order that the process may be most uniform.

Each piece passes to the next phase of salting, in which salt joins the piece. Finished the stage of salting, each part is subjected to the first drying step, during a period of four months in which temperature and humidity are carefully supervised.

Finished this phase, ham will pass to ageing in natural cellars, where hams complete its healing phase. All this process is natural and artisan.
